Request

I am writing to request information under the Freedom of Information Act about potholes in Jersey. Specifically, please can you provide the following information — broken down by Parish and by year.

- A. The number of potholes reported each year over the past three years.
- B. The number of potholes repaired each year over the past three years.
- C. Average time taken to repair a pothole from the time it is reported over the past three years.
- D. The annual spend on pothole repairs each year over the past three years.
- E. The number of compensation claims made by the public for damage caused by potholes each year over the past three years.

Response

E. Fewer than 5 claims have been made (due to the low number, the number is summarised for all Parishes).

FOI exemption applied:

Article 25(2) - Personal Information - Personal data, applicant not subject but supply contravenes data protection principles

Information is absolutely exempt information if - (a) it constitutes personal data of which the applicant is not the data subject as defined in the Data Protection (Jersey) Law 2018; and (b) its supply to a member of the public would contravene any of the data protection principles, as defined in that Law.
