Request

In St Peter a Resolution Framework was set up to address issues regarding St Peter's Technical Park. On the Parish Hall website it clearly states that an annual meeting is due to take place between the Constable and the landlord of the Technical Park. I would like a copy of all the minutes/notes of these meetings since the Framework was introduced in 2021.

I would also like a copy of the minutes/notes of the meeting that took place on the 23rd November 2020 between the constable and main attendees of the Technical Park.

Many thanks for your assistance with this and I look forward to hearing from you in due course.

Response

The St Peter Parish website has a page [Technical Park Resolution Framework | Parish of St Peter](#) which sets out the St Peter's Technical Park Resolution Framework. The Technical Park Resolution Framework outlines how members of the public can raise concerns and the process to submit comments.

The Framework review procedure includes that, if as part of the review the Technical Park, "may find that the matter must be held for discussion at the annual meeting between the Constable and the Landlord of the Technical Park." These meetings are arranged by the Technical Park and no meetings have been arranged since the Framework was introduced in 2021, so no minutes are held.

The Connétable of Peter attended a meeting on 23 November 2020 which was arranged by the Resolution Centre. No minutes of this meeting were produced by the Resolution Centre, but the attached St Peter Industrial Park Charter was the outcome of that meeting. The attached press release dated 25 November 2020 was also issued after this meeting.
