### Request

Could I request and FOI to capture the number of vehicles that were warned or fined by the police or honorary police at roadside (not simply reported on the DVS website) since 2016 for exhausts that exceeded the legal decibel regulations.

### Response

The twelve Parish Halls do not hold the information on the number of vehicles that were warned or fined by the police or honorary police at roadside (not simply reported on the DVS website) since 2016 for exhausts that exceeded the legal decibel regulations. Parish Hall Enquiry records are held centrally by the States of Jersey Police. No fines are issued by the Honorary Police at the roadside and warnings are not recorded.
